

# How to use a fire extinguisher the right way!

**1** Fighting large-scale fire

Start extinguishing the fire up front and from below. Make sure you extinguish downwind.

**2** Fighting flowing liquid fire

Start extinguishing from the top. Make sure you extinguish downwind.

**3** Fighting wall fire

Start extinguishing from the bottom. Make sure you extinguish downwind.

**4**

Please try to use a sufficient number of fire extinguishers at once. Not one after another. Attention! Mind potential backfire.

**5**

After use please ensure that fire extinguishers are going to be maintained by a Jockel-Partner and put back to its place.
